SUMMARY

I'm a front-end developer skilled in HTML5, CSS3, JS, React, and Next.js. While my English is at a beginner level, I'm actively seeking a remote job. I bring a cooperative, flexible, and goal-oriented approach to my work, focusing on achieving results. I enjoy working in a team and prioritize SEO optimization.

PROJECTS

My-Portfolio   **Git**

My portfolio is where you can find information about the projects I've been involved in. You can also just get to know me and learn about my taste and style of development. I also devoted a lot of time to SEO.
